Pre-bid Conference Info

A mandatory Pre-Bid Conference of all prospective Bidders and/or their representatives will be held at the City of Elmhurst Public Works, 985 South Riverside Drive, Elmhurst, Illinois 60126 on October 24th, 2023, at 9 A.M. Bidders are required to attend and participate in the conference. An optional site visit to the Water Reclamation Facility located at 625 South Route 83, Elmhurst, Illinois 60126 will follow immediately after the Pre-Bid Conference.

Description of Work:

The proposed construction consists of: Replacement of the mechanical equipment inside the primary clarifiers; Replacement of the mechanical equipment inside the secondary clarifiers and conversion of the inboard troughs to peripheral concrete troughs; Replacement of the gates in the aeration tanks effluent channels; Installation of flow meters and pinch valves between the aeration tanks and secondary clarifiers; Replacement of the mechanical equipment inside the CCT/excess flow clarifiers, replacement of inboard troughs with peripheral concrete troughs with finger weirs. Replacement of sodium hypochlorite delivery system including: new sodium hypochlorite storage tanks, new sodium hypochlorite feed pumps, new instrumentation and controls; Replacement of the existing gaseous sulfur dioxide dechlorination system with a liquid sodium thiosulfate dechlorination system including: new chemical storage tanks and secondary containment, new chemical feed pumps, new instrumentation and controls. Replacement of the primary sludge pumps in the Administration Building (Bldg 1) servicing Primary Clarifiers No. 1 and No. 2; Replacement of RAS pumps, automation of RAS pumping, and improvements to allow RAS pumping directly from each secondary clarifier; Removal of the hydronic heating system in the Administration Building (Bldg 1) and new HVAC system in the same building; Construction of new NPW Building and connection to existing NPW distribution system;
